Please email me with any discussion suggestions.

Purpose: We will discuss a variety of parenting topics and will always have time for open discussions each week to address concerns you may have. Parents are encouraged to bring up topics that may be of interest to the group. The meetings are usually fun and informal. This is an opportunity to connect with other Penn Hills parents and get information/feedback on parenting issues.

Who should participate? Parents or family members of a student from any Penn Hills elementary school who want to stay connected with their student and assist in the development of their social and academic skills. Parents interested in improving their relationship with their child. Parents who want to learn strategies to effectively deal with unwanted behaviors.

I will hold meetings once a week in the cafeteria of the elementary buildings throughout the district. The dates, times, and meeting places are listed above. Please be sure to sign in with the office upon entering the building.
